

Adding a text number to your account will let us keep you in the know about account happenings - like new offerings, your bill information, outage updates, and tips & tricks. You can opt out at any time and manage which things you'll get notifications for within the SmartHub portal.

**Step 1-** Log in to your account on the SmartHub mobile app.

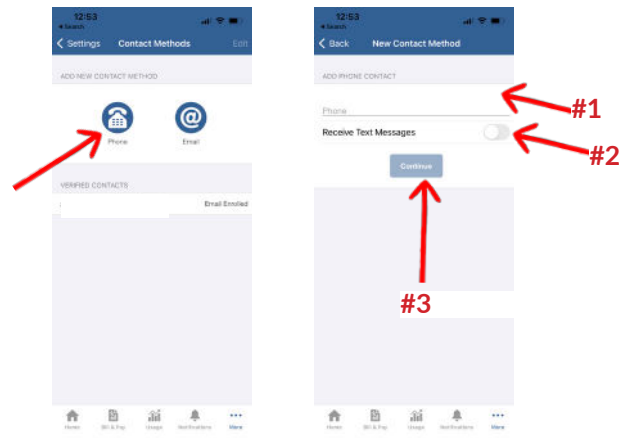

**Step 2-** Select "more" at the bottom right

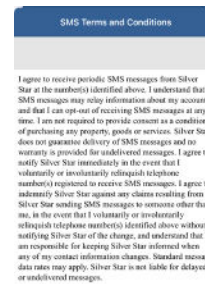

**Step 3-** Select "settings" and choose "contact methods."

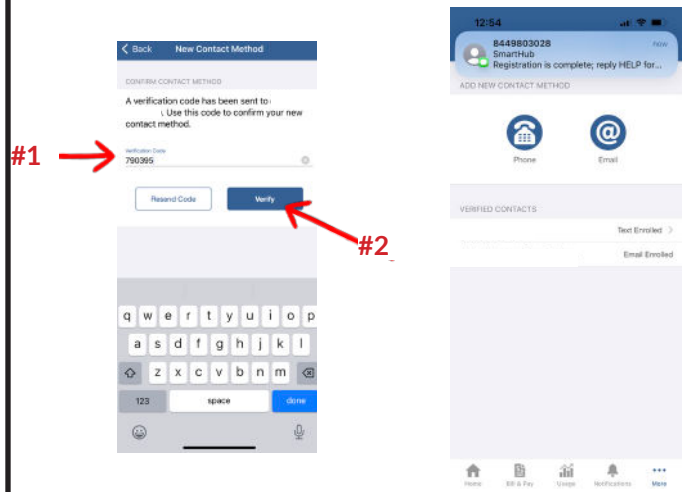

**Step 4-** Tap "phone" under add a new contact method. Add your phone number and toggle "receive text messages" to on. Hit continue.

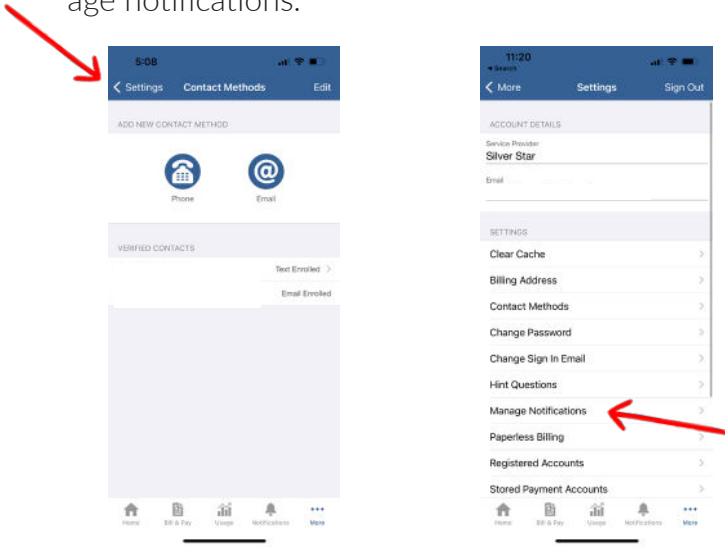

**Step 5-** Review the SMS Terms and Conditions. Select "Accept."

**Step 6-** SmartHub will send a phone verification code to properly pair your phone to your account. Input that code here, and select "verify." You'll receive a confirmation text when complete.

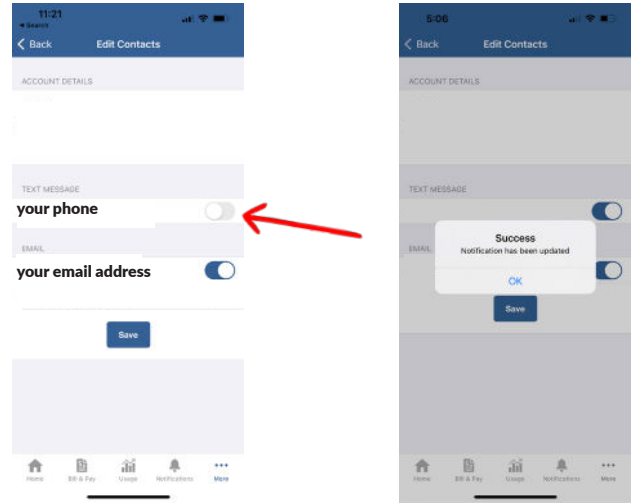

**Step 7-** Once your phone number is saved, go back to “settings,” and this time choose “manage notifications.”

**Step 9-** Toggle the switch next to your phone number to “on,” and select “save.”

You'll now receive text message about your account.

**Step 8-** Tap “On Demand,” and “not enrolled” on the “Text Message” line.
